National Aeronautics and Space Administration

Dynamic Neutral Atmosphere-Ionosphere Coupling (DYNAMIC) Solicitation

Pre-Proposal Conference
Goals and Guidelines

Jared Leisner – Lead Program Scientist, Solar Terrestrial Probes Program
Heliophysics Division, Science Mission Directorate
NASA Headquarters

June 6, 2023

Goals

- The purpose of this Pre-Proposal Conference is to address questions about the process for the DYNAMIC AO.

- The Conference is open to the public and all interested parties.

- NASA's overall goals are to help improve the quality and responsiveness of proposals by:
  - Offering overviews of the AO, review and selection processes, and information focused on other topics that typically generate questions;
  - Offering proposers an opportunity to have questions answered; and
  - Answering questions that were previously submitted (received no later than 5 business days ago)

Guidelines

- This Conference may not be recorded by attendees.
- Attendees may ask questions on any topic relevant to the DYNAMIC AO, within the following framework:
  - Write questions via chat or verbalize questions via the teleconference line. Questioners need not identify themselves.
  - Hold questions until the end of a presentation and/or the extended Q&A session after all presentations are completed.
  - As appropriate, cite the relevant sections of the DYNAMIC AO or other documents with the question.
- NASA will answer all questions related to the DYNAMIC AO that it can, within the following framework:
  - All exchanges between NASA and attendees will be accessible to all attendees. However, NASA personnel may engage in a private sidebar to determine the best answer before announcing it.
  - In addition to answering a question immediately, NASA may choose to post the question and answer on the DYNAMIC Acquisition Homepage.
  - If a question can not be answered immediately, NASA may defer answering until a complete response can be posted on the DYNAMIC Acquisition Homepage.
- All presentations and Q&A will be posted within two weeks to the DYNAMIC Acquisition Homepage: https://soma.larc.nasa.gov/STP/DYNAMIC/faq.html

Agenda

Time	Topic	Speaker	Affiliation
11:00	Welcome	Peg Luce	Science Mission Directorate, NASA HQ
11:05	PPC Goals and Guidelines	Jared Leisner	Science Mission Directorate, NASA HQ
11:10	STP Program, Overview	Alan Zide	Science Mission Directorate, NASA HQ
11:25	STP Program Office, Overview	Michael Delmont	STP Program Office, NASA GSFC
11:35	DYNAMIC AO, Overview	Jared Leisner	Science Mission Directorate, NASA HQ
12:20	DYNAMIC AO, Science Review	Jared Leisner	Science Mission Directorate, NASA HQ
12:50	DYNAMIC AO, Technical-Management-Cost Review	Elisabeth Morse	Sci. Off. for Mission Assessments, NASA LaRC
13:35	*BREAK*		
13:45	Safety and Mission Assurance	Jesse Leitner	Safety and Mission Assurance, NASA GSFC
14:15	Access to Space	Rex Engelhardt	Launch Services Program (LSP), NASA KSC
14:30	Space Communications and Navigation (SCaN)	Jeffrey Hayes	SCaN, NASA HQ
14:45	Export Control	Michael Y. Tu	Office of Int'l and Interagency Rel., NASA HQ
15:05	International Participation	Betsy Goldemen	Office of Int'l and Interagency Rel., NASA HQ
15:20	General Question and Answer, Discussion		
16:00	*WRAP-UP AND ADJOURN*		

All times given in U.S. Eastern Time

Presentations, Organization

- Individual presentations do not duplicate, may provide complementary information

- Discussions may reference relevant solicitation documents/materials
  - AO §#.# AO Section
  - AO Req. ## AO Requirement
  - EP ## AO Evaluation Plan slide
  - PL *XYZ* Program Library document
  - PPC *XYZ* ## Pre-Proposal Conference presentation, slide
  - Q&A *X*-## AO Questions & Answers entry

Presentations, Elements of Note

- AO Overview
  - Use of non-DYNAMIC measurements [AO §5.1.2]
  - Data Management, Software Management Plans [AO §4.4.2, §5.1.2, §5.2.3, App. D]
- Science Review
  - Forms A, B, and D revision [AO §7.2]
- TMC Review
  - Clarification process [AO §7.1.1; EP 33-37]
  - Access to Space, storage requirements [AO §5.9.2, §5.9.3; AO Req. 98, 99]

Questions?

All further questions pertaining to the DYNAMIC AO MUST be addressed by email to:

Dr. Jared Leisner
DYNAMIC Program Scientist
Science Mission Directorate
NASA Headquarters
Washington, DC 20546
jared.s.leisner@nasa.gov

Elisabeth L. Morse
DYNAMIC Acquisition Manager
Science Office for Mission Assessments

elisabeth.l.morse@nasa.gov

(subject line to read “DYNAMIC AO")
